Professional Summary

Information Technology undergraduate with strong foundations in **Data Structures & Algorithms using Java** and hands-on experience in **JavaScript** and full-stack **MERN** development. Experienced in building scalable, secure web applications using modern technologies while strengthening problem-solving skills through real-world projects and coding challenges.

Education

PCET's Nutan Maharashtra Institute of Engineering and Technology, Pune
Bachelor of Engineering in Information Technology

Aug 2023 – May 2027
GPA: 8.81 / 10.0

Technical Skills

Languages: Java, JavaScript

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js

Databases: MongoDB, SQL

Core CS: Data Structures & Algorithms, OOP, DBMS, Computer Networks

Tools: Git, GitHub, VS Code

Projects

Bodhi AI — bodhi-ai-eight.vercel.app

Mar 2026

React.js, Vite, Node.js, Express.js, MongoDB, JavaScript, JWT, OpenAI API, Sarvam AI

- Developed a full-stack AI-powered conversational platform using the **MERN stack**.
- Implemented **JWT** authentication with frontend Access Token storage, **HttpOnly Refresh Tokens**, bcrypt hashing, and protected routes.
- Secured APIs using authorization middleware, **Express Validator**, login/signup rate limiting, and error handling.
- Integrated the **OpenAI API** for real-time AI conversations and the **Sarvam Speech-to-Text API** for secure voice-to-text interactions. Implemented secure audio uploads using **Multer**.
- Designed **RESTful APIs** using **Express.js**, **MongoDB**, and **MVC** architecture for user authentication and chat thread management.
- Developed a responsive React interface with chat history, Markdown rendering, syntax highlighting, React Context API, and Axios.
- Deployed the frontend on **Vercel** and backend on **Render** with secure CORS and production environment configuration.

NivasZone — nivaszone.onrender.com

Dec 2025

Node.js, Express.js, MongoDB, EJS, Mapbox API, Cloudinary, Passport.js, HTML, CSS, JavaScript

- Developed a full-stack Airbnb-like web application for property listing, booking, and management.
- Implemented secure session-based authentication using **Passport.js** with **OTP-based email verification** during user signup via **Brevo**.
- Integrated the **Mapbox API** to display interactive maps with location-based listings and dynamic markers.
- Built booking, payment, review, and user profile modules with personalized user-specific operations.
- Designed **RESTful APIs** using **Express.js** and **MongoDB** following **MVC architecture** to manage users, property listings, bookings, reviews, and payments.
- Integrated **Cloudinary** and **Multer** for secure property image uploads and cloud storage.
- Implemented authorization **middleware**, server-side validation, centralized error handling, and flash messages.
- Deployed the application on **Render** with secure environment configuration and a responsive EJS-based user interface.

Experience

MERN Stack Developer Intern

Dec 2025 – Jan 2026

Codec Technologies Pvt. Ltd. — AICTE & ICAC Approved

- Developed responsive full-stack web applications using the MERN stack following industry best practices.
- Built RESTful APIs with Node.js, Express.js, and MongoDB, and integrated them with React.js frontend applications.
- Implemented CRUD operations, authentication, routing, and database integration for web applications.
- Collaborated with mentors through code reviews, technical sessions, and project-based development to strengthen full-stack development skills.

Certifications

Data Structures and Algorithms using Java

Apna College

Full Stack Web Development

Apna College

Learn JavaScript

IBM SkillsBuild

Artificial Intelligence Fundamentals

IBM SkillsBuild

AWS Solutions Architecture Job Simulation

Amazon Web Services

Student Member Certificate, ISTE

2025 – 2027
